

SEM Market Integration Project

Stakeholder Workshop 2

21 November 2011

Location – Dundalk (TBC)

Interested market participants and others are invited to attend a second project workshop on SEM Market Integration.

The purpose of this workshop is to update market participants generally on the project since Workshop 1 which was held on 3 October¹ and to provide an opportunity for discussion on the potential options for aligning the SEM with the target models for electricity in the CACM Framework Guidelines² as per the SEM Committee's SEM Market Integration Project Initiation Document³.

The following issues shall be presented and discussed:

- Latest developments on the European internal electricity market
- Initial draft options to align the SEM with the target models
- Discussion on key SEM High Level Design implications

The format of the workshop will be presentations followed by a Q&A and open discussion on each topic.

The Project Team will use the outcome of the workshop to feed into the draft consultation paper to be submitted to the SEM Committee in December.

Please indicate your intention to attend this workshop by contact mkennedy@cer.ie by 18 November. The location will be confirmed shortly.

If you have any queries in relation to above please do not hesitate to contact Philip Newsome (pnewsome@cer.ie) or Jean Pierre Miura (jeapierre.miura@uregni.gov.uk).
