Dear Elaine and Evridiki,

Please find a “marked-up” and a “clean” revised version of the East West Interconnector Access Rules and Congestion Charging Methodology Statement.

The Access Rules have been amended to include the consulted upon changes as described in the EWIC Access Rules and Charging Methodology Consultation Review document.

These changes have been made in cooperation with Mutual Energy to align with the Moyle Interconnector Access Rules.

We would appreciate it if you could review and approve this revised set of Access Rules and Congestion Charging Methodology Statement at your earliest convenience.

If you have any issues or questions we are happy to discuss.

Sincerely,

Peter Lantry
