APPENDIX C – RESPONSE TEMPLATE

ID	Proposed Modification and its Consistency with the Code Objectives	Impacts Not Identified in the Modification Proposal Form	Detailed CMC Drafting Proposed to Deliver the Modification
<p>CMC_03_20</p> <ul style="list-style-type: none"> - Modification to the Long Stop Date for the CY2023/24 T-4 Capacity Auction 	<p>Energia acknowledge the requirement to amend the CMC as proposed in order to maintain the existing delivery period for new capacity as would have been provided had the associated Capacity Auction Timetable not been amended. This would result in an increased delivery risk for new capacity projects should the proposed amendment to the Long Stop date not commence.</p> <p>Energia welcome the clarification and revised legal drafting such that the proposed amended Long Stop date will only apply to new capacity projects which are awarded a multi year contract. It is critical that this amendment does not apply to new capacity projects who are awarded a one year contract as this could have serious implications for the successful delivery of new capacity for the Capacity Year 2023/24.</p> <p>Accordingly Energia are satisfied that the proposed modification is consistent with the Code Objectives.</p>	<p>Energia are not aware of any impacts in the Modification Proposal Form which have not been identified.</p>	<p>Energia are satisfied that the drafting to be included in the CMC to deliver the Modification is accurate and will implement the Modification as intended.</p>
